

Making the Right Moves: A Practical Guide to Scientific Management for Postdocs and New Faculty, Second Edition  
Based on workshops co-sponsored by the Burroughs Wellcome Fund and HHMI, this book is a collection of practical advice and experiences from seasoned biomedical investigators and includes chapters on laboratory leadership, getting funded, project management, and teaching and course design.

Note: HHMI is no longer accepting orders for hard copies of Making the Right Moves. This book is available for free as a downloadable PDF document below.

Front matter and Introduction (pp. i-4)

Copyright

Contents

Preface

Acknowledgments

Introduction

Chapter 1: Obtaining and Negotiating a Faculty Position (pp. 5-24)

The Job Search

The Job Application

The Job Interview

Negotiating Your Position

Resources

Chapter 2: Understanding University Structure and Planning for Tenure (pp. 24-48)

Organization of a "Typical" University

Organization of a "Typical" Academic Health Center

People You Should Get to Know

Faculty Governing Bodies and Committees

Support Facilities and Services

Responsibilities Beyond the Laboratory

The Scientific Investigator and the Outside World

Planning for Promotion and Tenure

Resources

Chapter 3: Laboratory Leadership in Science (pp. 49-76)

Your Role as a Laboratory Leader

Creating Your Vision as a Leader

Developing Your Leadership Style

Building and Sustaining an Effective Team

Resources

Appendix 1: The Four Preferences That Make Up Your Personality Type

Appendix 2: Performance Review Form

Appendix 3: Performance Feedback Checklist for Managers

Chapter 4: Staffing Your Laboratory (pp. 77-96)

Getting Started

Recruiting Applicants

Screening Applicants

Interviewing Applicants

Evaluating Applicants

Making the Offer

Asking Staff to Leave

## Resources

### Appendix: Telephone Interview Outline

#### Chapter 5: Mentoring and Being Mentored (pp. 97-112)

##### What is Mentoring?

##### A Mentor's Responsibilities

##### Strategies for Effective Mentoring in Your Lab

##### Different Mentoring Needs

##### Mentoring Individuals Outside Your Lab

##### How to Get the Mentoring You Need

##### Gender and Culture Issues

## Resources

#### Chapter 6: Time Management (pp. 113-124)

##### Strategies for Planning Your Activities

##### Managing Your Time Day to Day

##### Special Issues

## Resources

#### Chapter 7: Project Management (pp. 125-142)

##### What is Project Management?

##### Getting Started

##### Tracking the Work and the Resources

##### Project Management Software

##### Controlling the Project

## Resources

### Appendix: Project Management—A Real-life Example

#### Chapter 8: Data Management and Laboratory Notebooks (pp. 143-152)

##### Day-to-Day Record Keeping: The Laboratory Notebook

##### Tracking and Storing Information

##### Finding the Right Data Management System for You

## Resources

#### Chapter 9: Getting Funded (pp. 153-174)

##### Understanding the NIH Funding Process

##### Preparing a Strong Grant Application

##### A Bit About Budgets

##### Submitting Your Application

##### The National Science Foundation

## Resources

#### Chapter 10: Getting Published and Increasing Your Visibility (pp. 175-186)

##### A Brief Overview of Scientific Publishing

##### Planning for Publication

##### Getting Your Paper Published

##### Increasing Your Visibility

## Resources

#### Chapter 11: Understanding Technology Transfer (pp. 187-200)

##### University Technology Transfer Offices

##### The Technology Transfer Process

##### The Legal Terms and Agreements

##### Sponsorship and Consultation

##### Conflicts of Commitment and Interest

## Resources

#### Chapter 12: Setting Up Collaborations (pp. 201-210)

##### The Varieties of Collaborations

##### Should You Collaborate

##### Setting Up a Collaboration

##### The Ingredients of a Successful Collaboration

##### Special Challenges for the Beginning Investigator

##### International Collaborations

##### When a Collaboration is Not Working

## Resources

#### Chapter 13: Teaching and Course Design (pp. 211-246) (700KB)

Why Teach Well  
Becoming an Effective Teacher  
Planning to Teach a Course  
The Principles of Active Learning  
Active Learning at a Medical School  
Assessing Student Learning  
Course Design  
Teaching Others to Teach  
Professional Considerations  
Resources  
Appendix 1: Examples of Active Assessments for Large Lectures  
Appendix 2: Bloom's Taxonomy  
Index (pp. 247-255)
